Hi Bill

Sorry about the confusion. New number is 4210.

Steve

*\*DEC. VISIT CONDUCTED AT REQUEST OF BRUNENBER*

Hi Steve.

I apologize for my delay, I was in and out of the office the past several days. As I stated at our site visit, I would relay everything going on at the site which shows the stormwater is managed properly. I see no signs of contaminated stormwater leaving the site under the new changes you installed recently.

The only item I still need clarification on is the SIC code. The one you submitted below is invalid. SIC codes are either a 3 or 4 digit number. As we discussed, I need this to determine your facilities eligibility for the MSGP permit. The sooner I get this information, the sooner I can relay what we discussed to the complainants.

Thanks Steve. Hope to get your information soon.

-B
